

Philip Nordfalk

Presentation and Curriculum Vitae

Profile

I am an experienced management consultant with a demonstrated history of work within Governance, Risk, Control and Compliance areas. I'm skilled in Enterprise Risk Management, Business Processes, Internal Controls, Information Security and Compliance Management. Strong consulting professional with a Bachelor of Commerce (HD) focused in Economics and Business Administration from Copenhagen Business School as well as several certifications in information security and risk management.

Specialties includes advisory services and implementation support related to Sarbanes-Oxley (SOX) as well as the EU General Data Protection Regulation (GDPR). As such, I have good experience in identifying and understanding relevant legislation and standards and help to get this implemented in practice.

In addition, I have engaged as a project manager on many projects, and I'm not afraid of doing "hands-on" detailed work if this is required on an engagement.

I do have good experience in gaining an overall understanding of the business and the environment in which it operates to "right-size" efforts that I advise on and assist the customer with. Helped many companies from analyzing business needs and overall design of concepts through architecting more detailed procedures and work instructions and then assisted the company implement and use these in their day-to-day work.

Experience

2011 – now	Freelance Senior Consultant working with large customers in various engagements and projects. This included establishing an Information Security Framework (primarily based on ISO 27000), establishing a framework for running an internal Information Security Compliance function, advise on and work in a larger Identity and Access Management System implementation, establishing procedures and performing activities for internal controls that works in practice.
2006 – 2011	Practice Area Manager, Risk and Security Management Services, Devoteam Consulting A/S
2000 – 2006	Senior Manager, Enterprise Risk Services, Deloitte
1979 - 2000	Several positions in Coopers & Lybrand (now PriceWaterhouseCoopers), including Director, Global Risk Management Services and Senior Manager, Computer Assurance Services in Los Angeles, USA.

Selected projects

2019	Vækstfonden – The Danish Growth Fund: Professional advisory and implementation services, primarily related to implementation of GDPR actions and to design, authoring and implementation of policies and procedures for Identity and Access Management. This also included extensive planning, facilitation, analysis and assistance in structuring of access controls and implementation of a supporting IAM system.
2017 – 2019	Milestone Systems A/S: Assistance in designing and implementing procedures, work instructions and training for Information Security. The work included a governance structure for Information Security in the company, based on standards such as ISO 27000 and Cobit. Member of core team in the company's GDPR project, especially in coordination between the company's Information Security activities and other GDPR activities to avoid parallel and redundant efforts. Participated as an advisor and executor on interpreting the regulations and implementing necessary business procedures (IT as well as non-IT). Member of the core team and major participation in the company's implementation of an Identity and Access Management System, primarily on the business side.

2017 –	GSV Materieludlejning A/S: Provisioning of advisory services and workshops to reach GDPR compliance. The work included assistance on identifying and mapping relevant business processes, setting up necessary documentation, assistance in creating awareness material and more.
2016	SDC A/S: Engaged as Compliance Officer in a major Danish IT Services Provider company within the financial sector. This engagement included establishing and facilitating cross-functional workshops and other activities to assist in improving and streamlining the compliance efforts of the organization. It also involved mapping of relevant legislation to policies, procedures and practices. Making controls and documentation on the policies and procedures.
2015 - 2016	VP Securities A/S: Advice and services on revitalization of information security and compliance in a large Danish finance business. The project included Risk Management and Internal Controls disciplines and establishment of a formal security framework and methodology – primarily based on the ISF standards.
2015	SimCorp: Advice and support in designing and implementing an Enterprise Risk Framework in a global company developing software for the financial sector. Deliveries included authoring an Enterprise Risk Management Manifesto / Guide.
2013 – 2015	Mecom Group plc/Berlingske Media: Group Internal Auditor, included cross border activities, coordination and reporting.
2011 – 2012	Jeld-Wen Inc.: Project and professional management – process change and implementation project for a US based global manufacturing company as part of the company’s Sarbanes-Oxley (SOX) compliance project. Acted as European IT Project Lead with team and professional responsibility for roll-out in Europe, liaising with and reporting to the PMO in the US.
2007 – 2009	Danish Courts: Project and professional management – test and quality assurance project and security advice carried out for Denmark’s Electronic Real Property Registration System (Elektronisk Tinglysning). Member of the projects’ overall steering group, chaired two subcommittees, managed a team of 7-10 individuals consisting of consultants and customers personnel. Tight coordination with system vendor. Challenging multipart project.

2003 – 2006 Project and professional management of several audit, consultancy, compliance and implementation projects for a number of big, international companies in relation to implementation of SOX. The projects, which were primarily concerned with setup of information security and with compliance management, included customers like Volvo Car Corporation/Ford Motor Company (Gothenburg, Sweden), Roper Industries and Sauer-Danfoss (Denmark and several European locations). Management of larger project teams and international coordination.
